measurement on a quantum system

$|\Psi\rangle$      $\hat{P}$

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

measurement on a quantum system

$$|\Psi\rangle \quad \hat{I}_z$$

---

---

---

---

---

---

measurement on a quantum system

$$\hat{I}_z |+\rangle = +\frac{1}{2} \hbar |+\rangle$$
$$\hat{I}_z |-\rangle = -\frac{1}{2} \hbar |-\rangle$$

---

---

---

---

---

---

measurement on a quantum system

$$|\Psi\rangle = |+\rangle$$
$$|\Psi\rangle = |-\rangle$$
$$|\Psi\rangle = a |+\rangle + b |-\rangle$$

---

---

---

---

---

---

measurement on a quantum system

$$a^*a + b^*b = 1$$

$$|a|^2 + |b|^2 = 1$$

$$|\Psi\rangle = a |+\rangle + b |-\rangle$$

---

---

---

---

---

---

measurement on a quantum system

$$|\langle + | \Psi \rangle|^2 = |a|^2$$

$$|\langle - | \Psi \rangle|^2 = |b|^2$$

---

---

---

---

---

---

measurement on a quantum system

$$|\langle + | \Psi \rangle|^2 = |a|^2$$

$$|\langle - | \Psi \rangle|^2 = |b|^2$$
